

VISITORSKIOSK PS 1

Visitorkiosk PS1 is a self-service kiosk where visitors can check-in using a QR-code on their phone. Visitors can also check-in by registering their name, who they will visit and then get a printed visitor's badge.

PS1 relieves staff and gives professional impression.

The podium has a beautifully ragged look in black powder paint but can be delivered in any RAL color. PS1 comes with a 15" touch screen/computer, a visitor badge printer, a QR code reader and a stainless steel industrial keyboard with trackball.
