VISITORSKIOSK
PS20

PS20 is a slim self-service check-in kiosk where visitors to all kinds of facilities may register their visits. When checked in the host is automatically notified via SMS and/or Email. The kiosk can be equipped with a QR code reader and a visitor badge printer for a fully automatic management of visitors. When visitors are pre-booked in CavVisit visitor management software or web portal they automatically receieve an Email invitation containing a QR code. On arrival, the visitor shows the QR code to the QR code reader and a visitor badge is printed. The host is automatically notified of the arrival via SMS and/or Email. PS20 comes with a 15" touch screen, a minimalistic keyboard and mouse to be used as a desktop station. The screen/computer can also be mounted on walls with a VESA bracket kit.
